

Area

October-21-13

9:06 AM

- Area refers to the measure of a region
- always in square units (ex. m^2 , cm^2 ...etc)

RECTANGLE

$$A = l \times w$$

SQUARE

$$A = s^2$$

or

$$A = s \times s$$

TRIANGLE

$$A = \frac{1}{2} (b \times h)$$

or

$$A = (b \times h) \div 2$$

CIRCLE

$$A = \pi r^2$$
